### DETAILED ACTION

1. The Amendment filed July 06,2007 have been entered .
2. Claims 1-12 are allowed.
3. The following is an examiner's statement of reasons for allowance: While Kanada et al (US 6,954767) teaches the images recorded modality 12 and 13 to record image data from a patient displays and the image server 14 compares the patient ID number associated with the image data 40 and judging means configured to judge the necessity of the pre-fetching based on a judging standard .Fukushima et al (US 5051849) teaches the controller 91 causes the display device 92 to display or warn the cassette is not loaded in order to avoid double or overlapped recording and obtain prompt recording under all conditions. Neither teaches or suggests the correspondence setting section prohibits the setting of the correspondence of the identification information of the cassette when the cassette is judges as the medical image is NOT read by the medical image reading apparatus by the judging section in order to allow a medical professional to keep track of multiple radio graphing orders without excessive paperwork thus reducing the occurrence of erroneous duplicate recording on the cassette. The Examiner finds no reason or motivation to combine the above references in an obviousness rejection thus placing the application in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
